Empathy Map Canvas

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It helps the team understand the true problem and the person experiencing it — considering things from the customer's perspective along with their goals and challenges.

Empathy Map — Customer Care Registry (Customer Persona)

Figure 1: Empathy Map Canvas for a Customer Care Registry end-user

The table below summarizes the same insights in text form for quick reference.

Think & Feel	• Wants quick complaint resolution. • Expects transparency and trust. • Wants secure personal data.
See	• Long queues. • Multiple disconnected support channels. • Delayed ticket updates.

Hear	• Friends recommend better services. • Customer support promises faster resolution.
Say & Do	• Raises complaints online. • Tracks ticket status. • Gives feedback after service.
Pains	• Slow response. • Repeating issue details. • No status visibility.
Gains	• One-stop portal. • AI-assisted categorization. • Faster resolution. • Better communication.
